

WEEKLY OPPORTUNITIES NEWSLETTER

YEAR 10

w/c 20th February 2023

Dear Student/Parent/Carer, Recording interactions on Unifrog

Could you let Mrs Farmer know if you take part in any virtual or in person opportunities advertised in this Newsletter please? It is important that young people keep an electronic record of all the interactions you have with Further Education, Higher Education and employers. Please email ffarmer@toothillschool.co.uk with the date of the activity and the name of the activity.

Enjoy

Career Of The Week

Electronics engineer

What you'll do

You could research, design and develop electronic components and equipment in a range of industries, for example:

- telecommunications mobile phones, radio, TV and satellite communications
- data communications PCs, tablets and cashpoints
- scientific research acoustics, optics, physics and nanotechnology
- medical instruments clinical and laboratory equipment
- defence communications, navigation and weapons systems
- aerospace avionics, radar, navigation and communication systems
- manufacturing programmable logic controls (PLCs) and industrial machinery

Your day-to-day duties will include:

- assessing new developments or innovations
- preparing technical plans using computer-aided engineering and design software
- estimating manufacturing and labour costs, and project timescales
- co-ordinating the work of technicians and craftspeople
- testing prototypes and analysing data
- making sure projects meet safety regulations
- planning and overseeing inspection and maintenance

You'll often work on a project with a team of engineers, technicians and IT staff. You'll follow electrical health and safety regulations.

Record relevant activities you've already done on the Activities tool

Working hours and environment

You'll usually work around 40 hours a week. You may work longer to meet project deadlines.

You'll usually work in an office or a lab. You may work in factories, workshops or outdoors.

Career path and progression

With incorporated or chartered engineer status you could:

- move into project management roles
- specialise in research, such as telecommunications, robotics or semiconductors
- work as an engineering consultant

You could also move into patent law.

Skills required

You'll need:

- maths skills
- IT skills to use computer-aided design software
- the ability to analyse problems
- organisational skills
- budgeting skills

Got evidence of these skills? Record your examples on the Skills tool

Entry requirements

You'll usually need a foundation degree, HND or degree in electronic or electrical engineering, or engineering technology.

Employers may accept qualifications in related subjects like physics, maths or computer science. See the Institution of Engineering and Technology (IET) for courses.

You could get into this job through an apprenticeship.

Helping students prepare for interviews!

Back to Top

It's that time of year where some of your students will be deep in apprenticeship applications meaning interviews could be right around the corner. It can be daunting but we are here to give them our TOP TIPS for acing those interviews.

We have released new written and video resources for your students to help them produce strong, competitive applications and achieve their dream role. These videos also feature our pathway alumni who have been successful in achieving an apprenticeship and are featured in the video to give their tips and experience.

time. This is in a form of a **15 minute virtual session** that they can book in where it is dedicated time to them, receiving advice and support wherever they need it. Whether that be through the 1st stage of an application with their CV or the last stage, prepping for an assessment centre.

To book a slot students can email student@pathwayctm.com

UNIVERSITY OF CAMBRIDGE

Year 10 and 11 - Downing College, Cambridge University Taster Webinar

Downing College, Cambridge is running a webinar for Year 10 and Year 11 students at UK state schools who are interested in applying to Cambridge, or who have the potential to apply to Cambridge. This will take place on Wednesday 1st March, 2023 from 5-6:30 pm online. Students attending the webinar will have the opportunity to find out more about the University, and explore what opportunities are available to them in the next few years. There will also be a Q&A with current undergraduate students.

For more information, and to sign-up please see: <u>https://www.dow.cam.ac.uk/outreach/year-10-and-11-university-taster-webinar</u>. The deadline to register is the **26**th **February**, **2023**.

VOLUNTEERING OPPORTUNITY

BINGHAM PENQUINS IS NOW AT BINGHAM ARENA - SUNDAY AFTERNOON FROM 2.30 PM - 4 PM

Are you interested in volunteering at Bingham Penguins? We would love to hear from you! We welcome people from age 14 +. You may be particularly interested in coming along if you are taking part in the Duke of Edinburgh Award, a Sports Award, you are looking for experience in working with people with disabilities or if you are

keen to get some volunteering experience for your C.V.

We offer training sessions twice a year and will pair you with an experienced volunteer to start with. You will always be under the supervision of a qualified swimming instructor. Volunteering at Bingham Penguins is a hugely rewarding experience and everyone always leaves with a big smile!

10

If you are interested in volunteering, please can you email secretary@binghampenguins.org for more information.

If you have any comments or feedback on the Newsletters please email ffarmer@toothillschool.co.uk and not reply to this email as these Newsletters are sent from a no reply email address.

Thank you
