

WEEKLY OPPORTUNITIES NEWSLETTER

YEAR 11

w/c 17th April 2023

Dear Student/Parent/Carer,
Recording interactions on Unifrog

Could you let Mrs Farmer know if you take part in any virtual or in person opportunities advertised in this Newsletter please? It is important that young people keep an electronic record of all the interactions you have with Further Education, Higher Education and employers. Please email ffarmer@toothillschool.co.uk with the date of the activity and the name of the activity.

Enjoy

Career Of The Week

Clinical engineer

Also called: Biomedical engineer, bio-engineer

Clinical engineers design, develop and maintain equipment for diagnosing illness and treating patients.

What you'll do

Your day-to-day duties may include:

- testing equipment, like walking aids, wheelchairs and speech synthesizers (known as assistive technologies)
- developing artificial limbs that attach to the patient's own tissue
- making artificial joints, heart valves and hearing implants from new materials

- designing equipment that allows doctors to try new medical techniques, like optical instruments for keyhole surgery
- management of medical equipment, like scanners, imaging machines and monitoring systems
- carrying out quality assurance checks to ensure all equipment is working correctly and safely
- working closely with other medical professionals and technical staff

Record relevant activities you've already done on the [Activities tool](#)

Working hours and environment

You'll usually work around 37.5 hours a week, between 9am to 5pm, Monday to Friday. In the NHS, you may have to work evenings or weekends as part of an on-call rota, depending on your role.

If you work in a hospital, you'll be based in a clinic and an engineering workshop. You'll need to travel locally, usually to manage and maintain medical equipment in hospitals or health centres. You may also need to travel for conferences and meetings.

In research or industry, you'll usually be based in a laboratory. You'll travel to introduce new equipment to hospitals.

Career path and progression

With experience and further training, you could become a consultant, specialising in particular clinical areas, or move into management, teaching or medical research.

Skills required

You'll need:

- excellent technical knowledge
- excellent communication skills for talking to patients
- the ability to prioritise workloads and plan effectively
- budgeting skills

Got evidence of these skills? Record your examples on the [Skills tool](#)

Entry requirements

You'll need a degree in a relevant science or engineering subject (2:1 or higher), or a postgraduate qualification, to apply for the [Scientist Training Programme \(STP\)](#) – a 3-year on-the-job NHS training scheme.

Alternatively, with a degree you could also find employment in the private sector and work your way up to chartered engineer status.

If you don't have a degree, you could apply for the [Practitioner Training Programme](#) (PTP) – a 3-year degree in healthcare science with NHS work placements.

You'll need to register with the [Health and Care Professions Council](#) once qualified. You could also get into this job through an apprenticeship.

Visit [Health Careers](#) for more details about working as a clinical engineer.

Successful candidates will have further opportunities of apprenticeship.

To Apply please send CV or details about you to Lisa info@bluhair.co.uk

SMB College Group

We attended and sponsored the Love Business Expo 2023 !!

SMB College Group sponsored the VIP Lounge and MINDSET Sports Village on the day, with the aim of showcasing how the elite sporting mindset can be adopted in business practices to achieve top results.

The MINDSET Sports Village was run by SMB College Group's Sports Science degree students supported by Leicester Tigers, alongside Olympic Athlete Joel Fearon who collaborated with the College at the Expo. Through all of the activities on offer, delegates were thoroughly challenged and had fun testing their sporting ability and, most importantly, their mindset, ambition and resilience.

RAF virtual event 10 May 23

The poster features a dark blue background with a starry sky and a view of Earth from space at the bottom. At the top left is the Royal Air Force logo with the text 'ROYAL AIR FORCE' and 'REGULAR & RESERVE'. To its right is the slogan 'NO ORDINARY JOB'. The main title 'RAF WORLD' is prominently displayed in white, with a globe icon inside the letter 'O'. Below the title, the event date and time are listed: 'WEDNESDAY 10TH MAY 2023' and '18:00-20:30'. A central paragraph describes the event's focus on behind-the-scenes content. Below this, a list of three bullet points details the interactive features. At the bottom, a blue button with white text invites users to book their free ticket.

ROYAL AIR FORCE
REGULAR & RESERVE

NO ORDINARY JOB

RAF WORLD

**WEDNESDAY
10TH MAY 2023
18:00-20:30**

RAF World is back! This time we are taking a closer look at what happens behind the scenes preparing for ceremonial events and fly pasts, and the different types of career opportunities available.

See where the RAF could take your future. Join us from the comfort of your own home where you can:

- ◉ Explore interactive, 360° global operations, and see how we provide support all over the world: These operation zones are packed with tonnes of information and videos, to help you discover what life is like in the RAF and the perfect career for you
- ◉ Tune into our Main Stage show to learn from our panel of professionals how we work together to make our ceremonial work a success!
- ◉ Speak directly to an RAF recruiter. Our experts in the field will be there online to answer all your burning questions regarding career paths available, the RAF lifestyle, sports opportunities, benefits and how to start your journey

CLICK HERE TO BOOK YOUR FREE TICKET NOW!

YOU are invited to our Agriculture, Land-based and Equine Open Day!

YOU are invited to our Agriculture, Land-based and Equine Open Day!

Come along to discover what it's like to study Agriculture, Horticulture, Environmental Management or Equine at our specialist land-based campus

When?

 Saturday 22nd April 2023

 9am - 12pm

 Brooksby Campus

What to expect?

 Take a tour of our mixed working farm on our tractor and trailer, learning about this Spring's lambing, calving and arable activities!

 Find out about our exciting projects covering sustainability, regenerative agriculture/agroforestry, river restoration and the re-introduction of native species

 Visit our fantastic glasshouses and tour our stunning grounds

 Visit our nationally-renowned Equestrian Centre, equipped with state-of-the-art Equine Rehabilitation facilities, indoor arenas, outdoor arenas and more!

 Meet our industry-expert lecturers

Subjects covered at this event:

- **Agriculture and Farming**
- **Countryside and Environmental Management**
- **Equine**
- **Gardening and Horticulture**

(Within these subjects, we offer a range of full-time college courses, Degree options, Apprenticeships and Professional Short Courses.)

Booking

We highly recommend registering in advance, as our Open Events are very popular and we may choose to limit capacity if demand reaches a certain level. Simply follow the button below to register your place!

Why should your young person should be signed up to our student programme?

It's the best careers platform for **students aged 14-18** thinking about their future career path. Whether they are set on university or want to know more about other routes - this is the platform for them!

With free employer events, career resources and an insight into apprenticeship and work experience programmes available for them to apply to, what more could you ask for?!

Did we mention we also offer **1-2-1 mentoring sessions** for all students. If your child is currently going through an application process for an apprenticeship, whether it's the first stage interview or the last stage assessment centre, these mentoring calls will help! We have helped so many students already get their dream role so why not yours? **A huge bonus is that these sessions are completely free for students.**

[Sign Up Your Child Here](#)

Pathway CTM

Pathway CTM offer a free programme to access a range of careers events, opportunities and a chance to connect with employers. The website offers videos of previous events, as well as live apprenticeships and work experience opportunities. There are many virtual opportunities available which are open to students in Year 9-13.

This information will help you to make more informed decisions about your future career choices.

Sign up here to find out more:

University of
Sheffield

Girls into Electronics Day hosted by The University of Sheffield

Thursday 6 July 2023 9 AM - 5PM

Year 11 students can attend this independently with parental permission - cost of £20 to cover admin costs

To the attention of Year 11 students. Following the huge success from last year's [Girls into Electronic Event at the University of Sheffield](#), summer 2023 presents a fantastic opportunity to experience another real taster day at the Department of Electronic and Electrical Engineering, University of Sheffield! Girls into Electronics gives female students in Year and 11 the unique opportunity to

develop their interest in Electronics and Electrical Engineering through a one-day course at a Russell Group leading UK university.
For further information or any inquiries about the event, please feel free to contact Dr Rola Saad on eeeugadmissions@sheffield.ac.uk

[Find out more](#)

Grantham College Open Evening is coming up! Next Tuesday the 25th April between 5-7pm.

Come and talk to our expert tutors, meet our friendly staff & students. Our Open Events are a great opportunity to see what it is like to study at Grantham College & University Centre!

Our Open Days are very busy, so to ensure we can manage numbers on site, you must pre-register yourself and any guests. Join us anytime from 5pm - 7pm.

You will be able to network with our support staff and learn more about our services dedicated to supporting our students during their time at Grantham College & University Centre.

There will be campus tours available to view our state-of-the-art facilities. Here you will also be able to visit subject areas you are interested, view the learning spaces, and talk to our expert tutors.

INVESTIN

Update: Summer Career Experiences

Work experience in flagship industry sites across London

INVESTIN Trustpilot 4.9/5 from 1,200+ Trustpilot Reviews

SUMMER CAREER EXPERIENCES

Immersive industry experience for students ages 12-18

80% FULL

IN LONDON

Over the Easter period, we were busy putting the finishing touches to our immersive summer career experiences in London. **We are now more than 80% full and expect to close registration soon.**

Some of the life-changing opportunities on offer: Debate in a 'Model UN' session at **Amnesty International**; experience sports psychology at a **Premier League football club**; display your artwork in a private gallery at the **Tate Modern**; piece together a supercar engine with **F1 engineers**; direct scenes on a **Hollywood film set**...and many more world-class experiences that make our programmes the internship of a lifetime!

Please forward this email to relevant students and parents so they can register now.

[PDF of this email](#)

Students who require accommodation will stay at UCL halls, with full meals and guardianship included. Our Summer Experiences qualify as a residential activity for Duke of Edinburgh Gold award purposes, and we are listed as an official activity provider on the UCAS application form!

Our Impact on Students

OUR IMPACT

Headlines from our 2023 Alumni Survey Report

80%

of respondents said that our programmes helped them decide what career to pursue

2

3

Some students highlighted just how valuable InvestIN has been in their career journey...

“The programme helped me better understand the concepts behind Computer Science, which has in turn helped me in my studies at Cambridge University and by extension my entire career journey.”

-Former attendee of the Young Computer Scientist Programme

“The programme helped me understand the pathways and the route I wanted to take into banking. I now work at JP Morgan on their apprentice programme.”

-Former attendee of the Young Investment Banker Programme

“InvestIN gave me a competitive advantage over other applicants when applying to university, leading to 5 successful offers.”

-Former attendee of the Young Psychologist Programme

Our findings are taken from the responses of 527 alumni students, who participated in InvestIN programmes from 2019 to 2021.

Full Impact Report coming soon...

78% of respondents referenced InvestIN in their university application

3/4 of respondents that referenced InvestIN received a place at their first choice university

of respondents said our programmes gave them the knowledge and skills they needed to succeed in their chosen career

Peterhouse Natural Sciences Outreach Lectures – Approaching Sciences at University

In May, one of the Director of Studies in Natural Sciences (Biology) at Peterhouse will be running a series of online lectures introducing the study of Natural Sciences at degree level. These will take the format of a short taster lecture followed by a discussion. The lectures will focus on Natural Sciences through a biological lens, but will also be relevant to students wishing to study physical sciences.

Who: Open to students in Year 11/12/13 (England and Wales), S4/S5/S6 (Scotland) and Year 12/13/14 (Northern Ireland)

Where: Online via Zoom

When: There are 4 different sessions taking place in the second and third week of May

For more information, please see our website: <https://www.pet.cam.ac.uk/peterhouse-natural-sciences-outreach-lectures-2023>

Booking is via the following link, and closes on Monday

8th May: https://cambridge.eu.qualtrics.com/jfe/form/SV_dnC3NyxT7V98VZI

Trinity College, Cambridge, Litmus creative writing project

Trinity College has launched The Litmus Creative Writing Project 2023 – an opportunity for Year 9 -11 students currently attending a UK state school to submit a short piece of writing of under 500 words in poetry, prose or any other format (including artwork) based around a theme for publication. This year's theme is Over the Border.

For further information, please see the following [link](#). The deadline for entries is the 28th July.

If you have any comments or feedback on the Newsletters please email ffarmer@toothillschool.co.uk and not reply to this email as these Newsletters are sent from a no reply email address.
