Career Of The Week

Anthropologist

What you'll do

Your day-to-day will include tasks such as:

- Gather and analyze artifacts and skeletal remains to increase knowledge of ancient cultures.
- Study archival collections of primary historical sources to help explain the origins and development of cultural patterns.
- Teach and mentor undergraduate and graduate students in anthropology.
- Write about and present research findings for a variety of specialized and general audiences.

- Plan and direct research to characterize and compare the economic, demographic, health care, social, political, linguistic, and religious institutions of distinct cultural groups, communities, and organizations.
- Build geographic information systems (GIS) to record, analyze, and cartographically represent the distribution of languages, cultural and natural resources, land use, and settlement patterns of specific populations.
- Observe and measure bodily variations and physical attributes of different human groups.
- Collaborate with economic development planners to decide on the implementation of proposed development policies, plans, and programs based on culturally institutionalized barriers and facilitating circumstances.
- Conduct participatory action research in communities and organizations to assess how work is done and to design work systems, technologies, and environments.
- Apply traditional ecological knowledge and assessments of culturally distinctive land and resource management institutions to assist in the resolution of conflicts over habitat protection and resource enhancement.

Record relevant activities you've already done on the [Activities tool](#)

Working hours and environment

Most people say the following:

- Work With Work Group or Team: Important.
- Work Schedules: Irregular (changes with weather conditions, production demands, or contract duration).
- Spend Time Sitting: More than half the time.
- Responsibility for Outcomes and Results: Moderate responsibility.
- Freedom to Make Decisions: A lot of freedom.
- Duration of Typical Work Week: More than 40 hours.
- Coordinate or Lead Others: Fairly important.

Career path and progression

You could work as a researcher or educator for a college, university or museum.

Outside of academia, anthropologist graduates can be found in a wide range of roles, including:

- foreign service officer
- public relations officer
- conducting site assessments for cultural resource management firms
- curating artifacts for research museums

Skills required

You'll need skills in:

- Reading Comprehension
- Writing
- Active Listening
- Speaking
- Science

Got evidence of these skills? Record your examples on the [Skills tool](#)

Entry requirements

You'll need a good degree, ideally a first class or upper second class, in Anthropology or a related field. You'll also need to have completed or be working towards a postgraduate master's or PhD in Anthropology, and have academic work published.

Some Anthropology researchers begin by working as a research assistant, for which you will need to have a master's degree in Anthropology or a related field.

To apply for an undergraduate degree in Anthropology, you'll usually need a minimum of:

- 2 to 3 A levels, or the equivalent
- GCSEs: English at C or 4.

Non-academic careers in Anthropology vary widely, but most will require you to possess at least an undergraduate degree in this subject.

YOUNG PROFESSIONALS

Get into Law Insight Evening -

7th February, 5pm - 8pm

Meet with 8 of the worlds biggest law firms!

Calling all perspective law students! We've got an incredible event lined up for you and quite possibly one of the biggest law events to take place yet!

On the 7th of February between 5pm – 8pm we are going to be joined by 8 of the world's biggest law firms / institutions. We have two Magic Circle Law Firms Clifford Chance and Linklaters joining us as well as internationally recognised firms: Browne Jacobson, Freeths, Farrer & Co, Charles Russell Speechlys, Fragomen and the University of Law! This is such a fantastic line up and students from across the country will have the opportunity to hear from and take part in workshops led by some of the biggest players within the legal industry!

Throughout the evening we will have lots of opportunities for networking where you can go in and out of different exhibition booths, ask questions directly to solicitors and legal professionals whilst hearing all about the different routes into the industry including work experience placements and solicitor apprenticeship programs.

This event is going to give any student a wealth of knowledge, a load of connections from the legal profession as well as giving you a huge advantage in securing some work experience or a solicitor apprenticeship opportunity.

If you'd like to secure your place to this virtual one-of-a-kind event, please use the link below to sign up!

National Apprenticeship Week: Resources to help you prepare

5 reasons you should kickstart your career with an apprenticeship

National Apprenticeship Week is coming up from 6th - 12th February!

Chances are you're starting to think about what you might like to do after you leave school or college. Did you know that an apprenticeship could be your ticket to a high-skilled job straight out of education? And what's more, you'll get paid a wage and gain qualifications without having to take on any student debt.

Here are our top 5 reasons to apply for an apprenticeship:

1. [You'll get paid a wage](#)

Apprenticeships are now a gateway into jobs which require higher-level qualifications such as foundation degrees, bachelor's degrees and even master's degrees. You could train as an engineer, a software developer, a solicitor, a nurse - there are even apprenticeships in academia!

Have a look at our guide to the [qualifications you can gain](#) from an apprenticeship.

2. You'll train in a high-skilled job

There is a minimum wage for apprentices, called the apprenticeship wage. This year, it is set at £4.81. It goes up in stages until you get to the age of 23, when it reaches £9.50, so long as you have completed the first year of your apprenticeship. The apprenticeship wage is increased every year. Remember this is the minimum - in practice, many apprentices earn much more.

[Read more on our site.](#)

3. You could get a university degree

If you complete a degree apprenticeship, you will gain a university degree. But unlike with the traditional university journey, you won't graduate with thousands of pounds of tuition fee debt because your employer will pay the costs for you.

Our guide to [degree apprenticeships](#) has the low-down.

4. You'll learn on the job

As an apprentice, you will gain the knowledge and skills for your role on the job. You'll spend most of your time in the office, lab, factory or field, where you will be trained up by experienced colleagues. Depending on your apprenticeship level, you will also study with a training provider, in college or at university, working towards a qualification which will support you in your day-to-day job.

Read about the four different [types of apprenticeships](#).

5. You could work in the industries of the future

Research suggests that technology skills, social and emotional skills and cognitive skills are set to grow the fastest over the next decade (see our guide to the [future of work](#)). Apprenticeships offer you a way into the most employable industries, from [tech](#) and [engineering](#) to [social care](#) and the [creative sector](#).

Take a look at our guide to [7 apprenticeships you never knew you could do](#).

Still undecided? Check out the guides below for more answers to your questions. And you don't need to choose right away! You could apply for university courses AND apprenticeship programmes to keep your options open.

- [Should I apply for an apprenticeship or go to university?](#)
- [How to find an apprenticeship](#)

We've got tonnes of apprenticeships from big employers on the Success at School website, **check them out today** and get applying:

[View apprenticeships now](#)

YOU CAN DO SPORT - HALF TERM TASTER SESSIONS FOR YEAR 10 AND 11

We have scheduled a taster over the half-term week!

YCDs Football Academy
Half-term Open Morning & Football Friendly
Friday 17th Feb, 10am - 12.30
YMCA Newark & Sherwood

If you are in Year 10 or 11, why not join to see for yourself what the YCDs Football Academy has to offer! Male and females welcome!
Meet the team, explore the facilities and learn about this unique further education programme. Plus enjoy a friendly with YCDs Head Football Coach, and former England International, Gary Charles!

NHS Careers Programme KS3 & KS4

Health Education England Careers Programme for KS3 & KS4

What is the [I'm in Healthcare](#) careers programme?

It's an online careers platform for KS3 and KS4 students to find out about careers in the NHS. They can:

- Use the '[I'm in Healthcare](#)' platform for the [Step into the NHS](#) competition where pupils research a job role and can win prizes including NHS goody bags and Amazon vouchers
- Complete quizzes and modules
- Message NHS ambassadors – real people, doing real jobs in the NHS!
- Benefit from access to ambassadors and information which can support their Health and Social Care studies

New feature!

After completing a task, students will be able to link directly to an NHS ambassador for further information and questions.

Next steps

Students can register at <https://hee.connectr.co.uk/hee/> using their school email.

I'm In Healthcare Online Careers Programme

Ends April
2023

What is the I'm In Healthcare Careers Programme?

It helps you find out about many careers in the NHS by:

- Completing quizzes and modules
- Messaging NHS ambassadors – real people, doing real jobs in the NHS

All you have to do is start by [signing up to I'm in Healthcare](#).

This is what you do:

1. Sign up to <https://hee.connectr.co.uk/hee/> - use your school email
2. Start with **Welcome to the NHS** and take the quiz
3. Send a message to a mentor/ambassador to find out about a career

Health Education England Careers Programme KS3 and KS4

Parents' Information

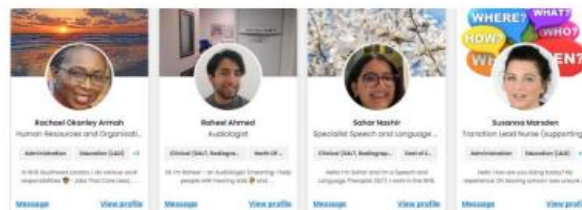

Health Education England is teaming up with Connectr to deliver a one-of-a-kind virtual careers programme from **Autumn 2022**. The programme will run until **April 2023**.

What do the students receive?

- bite-sized, interactive modules on the platform to learn about diverse NHS careers (See below)

- Opportunity to ask questions of a mentor currently working in a range of NHS careers.

To find out how Health Education England protects any personal information, please see the privacy policy below.

<https://hee.connectr.co.uk/hee/privacy-policy>

To find out how Connectr monitors security on the platform, please see the Terms and Conditions below.

<https://hee.connectr.co.uk/hee/terms-and-conditions>

Please apply by sending your cv and covering letter to Scott Clay
scottclay87@gmail.com

Biggest Technology Student Event of the Year with IBM, Capgemini, BT Group & more!

Biggest Technology Event of the Year!

IBM, Capgemini, BT Group & more!

Monday 6th February, 5pm - 8pm

Call all technology enthusiasts! On Monday 6th February between 5pm - 8pm we have something exciting planned for you!

Do you want to shape the future and push boundaries? A digital career with world-class tech organisations Capgemini, IBM, Experian, BT Group, Worldwide Technology and WTW could be just for you.

These companies are devising cutting-edge solutions and revolutionising the way people work. Immersed in new developments and concepts they are breaking new ground, using research to drive creative solutions. Tech jobs are available in various areas, including software engineering, web development, network engineering, data science, and IT support. You could also find jobs in virtual reality, artificial intelligence, robotics, cyber security and more. And with tech salaries now averaging at £60K you won't want to miss out on the chance to hear from the brightest minds in the industry.

Throughout the evening, you will have lots of opportunities for networking where you can go in and out of virtual exhibition booths, ask questions directly to Tech & Digital professionals whilst hearing about all the exciting routes into the industry including work experience placements and apprenticeship programs on offer.

This incredible event will give you a wealth of knowledge and insight into the cutting-edge industry as well as an opportunity to meet like-minded individuals already making moves in their roles – giving you lots of new professional connections and a huge advantage in securing work experience or a degree apprenticeship.

Get ahead of the crowd and secure your place at this one-of-a-kind event today. Please use the link below to sign up – spaces are limited.

Jaguar Land Rover Apprenticeships

Know any exceptional STEM students looking to accelerate their career with an apprenticeship? We are welcoming applications from curious, creative and bright minds to join us in September 2023 for the start of an exciting journey of creating the next generation of luxury, sustainable cars.

Applications are open for:

- Level 3 Advanced Apprenticeship (Manufacturing or Automotive)
- Level 6 Digital and Technology Solutions Degree Apprenticeship
- Level 6 Applied Professional Engineering Degree Apprenticeship Programme
- Level 6 Supply Chain and Logistics Degree Apprenticeship

Find out more about each of our apprenticeship programmes below.

Level 3 Advanced Apprenticeship (Manufacturing or Automotive)

Students can broaden their mind with brand new concepts at college and put them into action here at Jaguar Land Rover. One day, they'll be learning about the latest technologies in their field, and the next they'll be actually interacting with them - propelling their experiences beyond other people their age. There are four opportunities to choose from within our Level 3 Advanced Apprenticeship:

- [Automotive](#)
- [Manufacturing – Battery Assembly Centre and Engine Manufacturing Centre](#)
- [Manufacturing – Halewood](#)
- [Manufacturing – West Midlands](#)

Level 6 Digital and Technology Solutions Degree Apprenticeship

As well as working in key teams within our Product Engineering and Digital functions, your students will study for a **BSc in Digital and Technology Solutions (DTS)** with the highly-respected University of Warwick (Warwick Manufacturing Group).

There are four different pathways to choose within our Digital and Technology Solutions apprenticeship:

- [Software Engineering](#)
- [Software Engineering with Data](#)
- [Data Analytics](#)
- [Cyber Security](#)

Level 6 Applied Professional Engineering Degree Apprenticeship Programme

As well as working on ground-breaking projects, alongside expert minds, your students will study for a **BEng (Hons) Applied Professional Engineering Programme** at the prestigious University of Warwick (Warwick Manufacturing Group).

There are four different pathways to choose within this apprenticeship:

- [Product Design and Development](#)
- [Manufacturing](#)
- [Electrical or Electronic Technical Support](#)
- [Control Technical Support](#)

Level 6 Supply Chain and Logistics Degree Apprenticeship

As well as working in key teams within Supply Chain and Logistics, your students will study for a **BSc in Supply Chain Management (Professional Practice)** with Aston University, Birmingham which has been awarded Gold in the Teaching Excellent Framework and delivers a leading Supply Chain degree course.

- [Level 6 Supply Chain and Logistics Degree Apprenticeship](#)

[Nurse](#)

Did you know you can fully train in the Army as a nurse, with your tuition fees paid?

[Chef](#)

From cooking in the field, to fine dining, the life of an Army chef is as varied as it is exciting.

[Cyber Engineer](#)

Working at the forefront of cyber network technology.

YOUNG PROFESSIONALS

Huge Engineering, Construction, and Property Development Event with British Airways, Babcock, Mott MacDonald and more!

Monday 6th February 5pm – 8pm

FAO Careers & Aspiring Engineers

Calling all budding Engineers and Property Developers!

Register today for our biggest Engineering, Construction, and Property Development event ever taking place on Monday 6th February 5pm – 8pm.

This event brings together the best organisations in this industry. FTSE 100 Berkley St Edward, Babcock International, British Airways, Spectris, Mott Macdonald and AWE will all be on hand to share insights into the world of Engineering, Construction & Property Management, and the plethora of career choices this sector brings.

Engineering virtually effects every aspect of our lives. From the vehicles that take us to work, to the buildings in which we make our living and the satellites that enable you to read this on the internet. All these things are the work of engineers. So, if you're looking for one of the most reputed careers, held in high stead by employers, across the globe – all with promising financial stability – register today.

Throughout the evening, you will have lots of opportunities for networking where you can go in and out of virtual exhibition booths, ask questions directly to Engineering, Construction and Property Management professionals whilst hearing about all the exciting routes into the industry including work experience placements and apprenticeship programs on offer.

This incredible event will give you a wealth of knowledge and insight into the top-tier industry as well as an opportunity to meet like-minded individuals already making moves in their roles – giving you lots of new professional connections and a huge advantage in securing work experience or a degree apprenticeship.

Get ahead of the crowd and secure your place to this one-of-a-kind event today. Please use the link below to sign up – spaces are limited.
