

WEEKLY OPPORTUNITIES NEWSLETTER

YEAR 9

w/c 22nd May 2023

Dear Student/Parent/Carer,
Recording interactions on Unifrog

Could you let Mrs Farmer know if you take part in any virtual or in person opportunities advertised in this Newsletter please? It is important that young people keep an electronic record of all the interactions you have with Further Education, Higher Education and employers. Please email ffarmer@toothillschool.co.uk with the date of the activity and the name of the activity.

Career Of The Week – Paramedic

What you'll do

Most paramedics work for ambulance services. You'll deal with a range of situations, from minor wounds and substance misuse to serious injuries from fires and major road, rail and industrial accidents.

Your day-to-day tasks could include:

- checking a patient's condition to decide what action to take
- using electric shock equipment (a defibrillator) to resuscitate patients
- carrying out surgical procedures, like inserting a breathing tube
- giving medicines and injections
- dressing wounds and applying supports for broken bones
- delivering babies
- working closely with the police and fire services
- keeping accurate records and checking equipment

Record relevant activities you've already done on the [Activities tool](#)

Working hours and environment

You'll usually work 37.5 hours a week on shifts, including nights, weekends and bank holidays.

You'll wear a uniform including protective clothing.

You'll work on an ambulance, or as a specialist you may work on your own, using a car, motorbike or bicycle.

The job is physically and emotionally demanding, and it can be stressful. You'll have to work efficiently in noisy environments, make big decisions on your own, and be comfortable with the possibility that an error could have big consequences.

Career path and progression

With around 3 years' experience, you could become a team leader or a specialist paramedic or emergency care practitioner.

You could also move into operations management, education and training, research or human resources.

Skills required

You'll need:

- excellent driving skills
- the ability to think and act quickly under pressure
- practical skills and the ability to follow procedures
- excellent communication skills
- a caring, helpful attitude
- to be accountable for your decisions
- emotional resilience
- balance, to help you 'switch off' when you finish work
- technical skills, to use specialist equipment

Got evidence of these skills? Record your examples on the [Skills tool](#)

Entry requirements

You'll usually need:

- foundation degree, diploma, or degree in paramedic science or paramedic practice
- to be registered with the relevant professional body in your country (like the Health and Care Professions Council in the UK, or the Australian Health Practitioner Regulation Agency)
- a driving licence
- to pass a medical check
- a background check (usually arranged by the employer)

You could start as a student paramedic, a trainee technician, or an emergency care assistant for an ambulance service.

Working as a volunteer with an ambulance trust may help you to get onto a training course.

Next Generation Leaders – Social Action Project

Why get involved with NextGenLeaders?

The changemakers on our programme are empowered to challenge the status quo and tackle an issue that they feel passionately about. The best projects will become sustainable forces for good in their local community.

- Our mission is to empower the next generation of socially responsible leaders.
- We work intentionally in social mobility cold spots across Yorkshire, Derbyshire and Nottinghamshire.
- Over 70% of our changemakers self-identified that they are experiencing a barrier to learning.
- Our research-backed and free-to-access programme encompasses project-based learning and youth participatory action to create an inclusive experience.

What makes NextGenLeaders projects unique?

- Based on issues that young people feel passionately about (that adults probably aren't aware of!).
- Designed around and centred on positive behavioural change.
- Improves the livelihoods and environment of people within their local community.
- Tackle issues across the full range of Sustainable Development Goals to make an impact locally.

How does NextGenLeaders impact the young people involved?

- Student-led projects that are challenging enough to raise self-regulated learners with high aspirations.
- Develops independent learning skills which supports attainment and attendance.
- Enhances creativity, curiosity and empathy which are valuable life and employability skills.

"I have learnt about issues affecting our community. It has been an invaluable experience for me. Teamworking and sustainable intervention. Life-changing experience, I will never be the same again!"

"This programme has helped me mentally and I feel more motivated ... I feel like we are genuinely making a difference. I am very proud of how far my group and I have come, especially in this time frame."
