

OHM'S LAW

Ohm's Law is how Voltage Current and Resistance relate to each other.

This triangle can
be used to
calculate
V, I or R

V = Voltage

Measured in Volts (V)

I = Current

Measured in Amps (A)

R = Resistance

Measured in Ohms (Ω)

To find out the formula you need, cover up the letter you want to find out.

$$\mathbf{V = I \times R} \quad \mathbf{I = \frac{V}{R}} \quad \mathbf{R = \frac{V}{I}}$$
